## Monitor Set-up

---

The Artist will need 2 x 40 Watt wedges, with suitable amplification, are to be provided and must be operable from the DJ mixer. The wedges should be installed on stands at head height to the left and right of the DJ console.

---

.....  
Eats Everything's preferred monitors are listed below, monitor's need to be at ear level and approved by management before the event:

- 2 x L'acoustics SB28 placed - left and right of the DJ (100Hz Preset).
- 4 x L'acoustics ARCS - two placed left and right of the DJ on top of the SB28.
- 2 x L'acoustics LA8.

---

## Stage/DJ Booth Set-up

---

A secure and vibration-free DJ console is essential. If the DJ console is situated on temporary staging units, these must be fixed together properly, and to ensure the construction is vibration-free, please provide foam or concrete blocks. Black cloths should be used to skirt the DJ console.

The DJ booth needs to be 1.1 Metres high with the addition of CDJ's etc on top of this. Eats suffers from back problems and it is essential the booth is at a good height so he doesn't have to bend down to play.

## Lights & PA

---

**PA** – The promoter agrees to provide and pay for a first class PA system for this engagement at no cost to the Artist. All necessary crew and operators are to be in attendance throughout the entire duration of the Artist's performance. The PA should have powerful bass and produce 10-12 watts per person and should be adequate to the size and capacity of the club or festival.

**Lights** - A professional lighting system adequate to the size and style of the venue and stage is required. The DJ booth needs to be equipped with proper working light both near to the turntables and in the area where record boxes are placed. Eats Everything prefers for no lights directly facing his face while djing.
