

# Life On Planets

Life On Planets is the solo project of singer/guitarist Phill Celeste. Melding soul, R&B, and house in his original productions; the artist's eclectic sound took him from the streets of Baltimore to cities the world over. Join Phill as he weaves live performance with electronics to spread messages of truth, love and consciousness across dance floors.

## LIVE

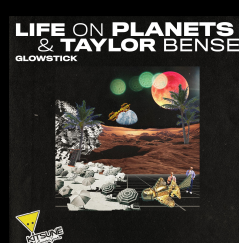

Whether alone or joined by DJ/Drummer Mateyo or other special guests; Life on Planets combines electronic beats with live instrumentation for a dynamic experience.
