## Little Talk with Julya Karma

Brooklyn-based DJ and producer, Julya Karma, has quickly become an unstoppable force in the house and techno scene. Her prowess as a selector and infectious energy in the booth has consistently delivered utter elation on dance floors across North America, including The Brooklyn Mirage, Time Warp, Mayan Warrior, and Bar Americas, appearing alongside heavy-hitting artists... *“You cannot replicate the feeling of an engaged dancefloor. Every single person in the room, and behind the stage, is contributing to the entire feeling of the experience. I always like to make a lot of eye contact and do my best to engage with the people around me, and find that when we are all truly present, it elevates and intensifies all of the energy and emotion being expressed in the sound itself.” - Julya Karma*

## Electronic Groove | [Read Full Interview](#)

*“I love writing melodies and chord progressions, and it feels the most natural with my piano background...the specific feelings tend to depend on my own I suppose. Lately, the moods I love have a darker component, juxtaposed with uplifting and positive moments. I’m very optimistic in general, but think it’s also important to connect with the difficult, tough situations in life and in yourself - so I like moods that bring you to both places and music that allows you to make these connections.” - Julya Karma*

# BIO

*A voyage through uplifting melodies and dark, hypnotic grooves, Julya's music tells what words cannot...*

Brooklyn-based DJ & producer, Julya Karma, has quickly become an unstoppable force in the house and techno scene. Her prowess as a selector and infectious energy in the booth has consistently delivered utter elation on dance floors across the world, including The Brooklyn Mirage, Time Warp, Afterlife, Cercle, Mayan Warrior, and Bar Americas, appearing alongside heavy-hitting artists like Rūfūs du Sol, Adriatique, Tale of Us, Sven Väth, Dixon, Ame, Innellea, Mind Against, and Monolink.

Julya's influences stem from learning classical piano at the age of 6, and from her early exposure to indie and psychedelic rock, traditional Middle Eastern music, and jazz. These diverse influences combined with her music curating obsession translate into her very dynamic DJ sets, where she aims to take her audience on an unexpected journey that is both outward and introspective, weaving moving melodies, driving basslines, and stimulating progressions to create her own individual, yet universally understandable sound.

Julya is endlessly inspired by music's ability to bring us to higher levels of consciousness, and to tell us stories about the gift of life and being - she aims to create music and experiences that do just that. With her first release, 'Eye of the Storm', out on Radikon, and a big second release, 'Hypnotized' out on Rūfūs du Sol's Rose Avenue, Julya's exciting journey is just beginning.
